

FJORD E-BIKE

FULL DAY MODE

Our journey begins with a pick-up from your hotel in Puerto Natales, starting a drive of approximately 20 kilometers toward the traditional Estancia Perales, where this unforgettable e-bike adventure will begin.

After receiving our bicycles, we will start riding north along an internal road surrounded by pristine nature. Along the way, we will pass through two authentic Patagonian ranches and enjoy the unique views of the Última Esperanza fjord. It will be a 20-kilometer route filled with landscapes, history, and the silence of Patagonia.

Once at Estancia Perales, we will have time to rest and appreciate the tranquility of the place. We will be welcomed with a snack, and afterward, we will take an e-bike tour along an internal trail within the estancia, exploring its natural surroundings.

Later, we will enjoy a traditional Patagonian lunch at Estancia Perales.

At the end of the experience, we will load the bicycles once again and begin our return to Puerto Natales. Arrival in the city and end of services.
